YOU CAN SEE.**

Building the Nation with Strength and Innovation

JSW Group isn't just a name, it's a legacy. A legacy that stretches over 40 years, standing tall as one of India's most trusted and innovative business conglomerates. From Steel to Cement and Energy to Paints, we've been part of India's industrial evolution, contributing to nation-building with every product we deliver.

Today, we lead the way in steel manufacturing with a production capacity of **37.5 million tonnes per annum (MTPA)**. This is not just a number it's a testament to the trust, quality, and innovation that defines every inch of our steel. And as we continue to push boundaries, we bring you our latest product - **JSW Endura+**.

Introducing JSW Endura+, the Next Evolution

Introducing **JSW Endura+**, the Next Evolution in colour coated sheets and coils

Imagine colour coated roofing sheets and coils that offer incredible strength and striking beauty while still being affordable. That's **JSW Endura+**, the next-generation colour coated steel for all your roofing needs.

Why settle for the ordinary when you can have extraordinary?

JSW Endura+ blends high-tensile steel with vibrant colours and BIS-certified quality. It's designed to stand the test of time, protecting your property with roofs that delivers exceptional durability, superior aesthetics, and cost-effective performance. Whether you're building a home, a school, or an industrial complex, **JSW Endura+** promises more than just protection - it promises peace of mind.

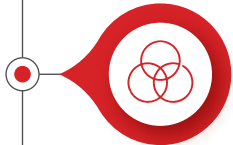

Why JSW Endura+? The Answer Is Simple

JSW ENDURA+

Structural Strength That Lasts:

Crafted from high-tensile steel, **JSW Endura+** stands up to the harshest elements. Rain, wind, or seismic activity – JSW Endura+ is built for all. It's a structure you can count on every time.

Colours That Make a Statement:

Don't just cover your building with ordinary roofing sheets, enhance it with **JSW Endura+** which offers a range of vibrant, UV-resistant colours that retain their brilliance, even under intense sunlight. JSW Endura+ roofing sheets and coils not only protect but also elevate your building's appeal.

Corrosion-Resistant Protection:

The advanced Al-Zn alloy coating shields your roof from rust and corrosion. Whether you're in a coastal region with salty air or an urban area with pollution, **JSW Endura+** roofing sheets and coils maintain their strength, keeping your roof and coil cleaner and stronger for longer.

Versatile Roofing Solution:

JSW Endura+ is suitable for a wide range of roofing applications from classic styles to modern designs. Durable yet lightweight, it ensures easy handling and a hassle-free installation.

Certified for Quality and Durability:

JSW Endura+ roofing sheets and coils are BIS certified and meet the the highest standards of quality, performance and compliance.

Affordable Value That Lasts:

JSW Endura+ is not only about superior quality, but also about exceptional value. It offers high-performance durability at an affordable price ensuring long-term savings, lowering maintenance costs and delivering a solid return on investment.
